

## Aircraft Engine Technician

### H+S Aviation Ltd, Portsmouth

#### H+S Aviation – what do we do?

H+S Aviation and sister company, Dallas Airmotive, are OEM-certified and dedicated to providing maintenance, repair and overhaul services for small gas turbine and turboprop engines used in aviation.

Do you want a flexible working life where you can juggle your work and home life equally? Our flexi hour/day banking system will give you the control you need! We treat all our employees fairly, equitably and with respect. We offer our employees our Perks discount scheme for hundreds of retailers and wellbeing support for you and your family 24 hours a day. If you stay with us for 5 years or more, we have long service recognition plus many other benefits including a Company Pension scheme matching your contributions up to 7.5%, and a non-contractual share save bonus scheme to help save for a rainy day.

#### About the role:

We are looking for an energetic and passionate Technicians with at least a level 3 apprenticeship in any mechanical or electrical engineering discipline to support us on repairing, overhauling and refurbishing our customer's aircraft engine accessory units as well as any of their components in line with their requirements and the manufacturer specifications. This includes:

- Checking in and stripping engine accessory units
- Carrying out basic cleaning of components
- Inspecting all relevant components and identifying items for scrap, rework or refit using product information
- Ensuring all components for rebuild are to the required specifications and available within agreed turn
- Building units to defined standards ensuring fit, clearance and modification levels are accurate
- Preparing and setting up units for testing
- Testing units, ensure all agreed checks are actioned
- Carrying out final checks on completed unit ensuring all paperwork is appropriately stamped.

#### What do we want to see from you?

- Recognised Engineering Apprenticeship (specialising in engineering discipline) or equivalent NVQ and BTEC level 3 in an engineering discipline.
- OR NVQ Level 2 and BTEC level 2 in an engineering discipline – we may have study options to get you to level 3!
