

Aero Engine Technician – Tester – H+S Aviation, Portsmouth

H+S Aviation – what do we do?

H+S Aviation and sister company, Dallas Airmotive, are OEM-certified and dedicated to providing maintenance, repair and overhaul services for small gas turbine and turbofan engines used in aviation.

Do you want a flexible working life where you can juggle your work and home life equally? Our flexi hour/day banking system will give you the control you need! We treat all our employees fairly, equitably and with respect, we like to look after our employees at H+S Aviation, we offer you our perks discount scheme for hundreds of retailers and wellbeing support for you and your family 24 hours a day. If you stay with us for 5 years or more, we have long service recognition plus many other benefits including a Company Pension scheme matching your contributions up to 7.5%, and a non-contractual share save bonus scheme to help save for a rainy day.

About the Role:

Carry out testing of aircraft engines in line with customer requirements and manufacturer specifications, ensuring the highest quality standards are achieved.

- Prepare, test and de-cart engine in accordance with engineering/OEM instructions.
- Carry out basic fault finding, repairs & maintenance on engine, operating system and plant equipment.
- Carry out full and partial module changes.
- Provide technical support to the Test Facility Local Management Team, engine programmes and vendors.
- Ensure all items required for test are to required specifications and available within agreed turn time targets.
- Carry out final checks on completed units ensuring all paperwork is stamped correctly.
- Assist Test Engineer when required.
- Assist in Inventory and Final Finishing of Engines

What do we want to see from you?

- Recognised Engineering Apprenticeship
- Computer Literate
- All our team members are approachable with a polite manner and we expect the same from you!
- We love enthusiasm and outgoing personalities who know how to balance work and having fun
